The Kentucky High School Feedback Report is produced by the Kentucky Center for Education and Workforce Statistics utilizing data from the Kentucky Longitudinal Data System (KLDS), which includes data from the Department of Education, Council on Postsecondary Education, and the Kentucky Higher Education Assistance Authority. This report provides the most complete and accurate data about college going and success that exists for this school. It follows students who graduated from public high schools in 2010-11 and were enrolled in a college or university during the 2011-12 academic year. It expands upon the previous High School Feedback Reports by including information about college success and progress for those public high school graduates of 2009-10 who attended an in-state public four-year university or KCTCS college during the 2010-11 academic year.

A. Overall, how do 2010-11 graduates from this school compare to others in Kentucky?

In order to ensure the confidentiality of individuals, some data items have been redacted. Redacted data are represented by an asterisk (*).
